

PRODUCT NAME:

EVERBUILD 825 SILICONE 380ML

PRODUCT CODE/S:

BROWN	
EB825ANTH	EVERBUILD 825 SILICONE ANTHRACITE 380ML
EB825BEI	EVERBUILD 825 SILICONE BEIGE 380ML
EB825BLK	EVERBUILD 825 SILICONE BLACK 380ML
EB825BRRED	EVERBUILD 825 SILICONE BRICK RED 380ML
EB825BRW	EVERBUILD 825 SILICONE BROWN 380ML
EB825BUFF	EVERBUILD 825 SILICONE BUFF 380ML
EB825DGREY	EVERBUILD 825 SILICONE DARK GREY 380ML
EB825LWHE	EVERBUILD 825 SILICONE LIMESTONE WHITE 380ML
EB825MAGN	EVERBUILD 825 SILICONE MAGNOLIA 380ML
EB825MGREY	EVERBUILD 825 SILICONE MID GREY 380ML
EB825PORT	EVERBUILD 825 SILICONE PORTLAND STONE 380ML
EB825WHE	EVERBUILD 825 SILICONE WHITE 380ML

DETAILS:
Full Description:

- Everbuild 825 Silicone is a low modulus neutral cure (LMN) silicone sealant designed for use in structural glazing, curtain walling, and perimeter joint sealing. It adheres to most common building materials without the need for primer, including glass, aluminium, PVCu, and masonry.

Its high movement capability ($\pm 25\%$) makes it perfect for expansion joints, while its UV and weather resistance ensures long-lasting performance in both internal and external applications. Everbuild 825 is also non-corrosive, making it suitable for use around sensitive metals and finishes.

Application Area

- Sealing expansion and movement joints in construction
- Perimeter sealing of window and door frames
- Curtain walling and structural glazing systems
- Metal cladding and panels
- Masonry and concrete joints
- Weatherproofing external joints and facades

Key Features:

- Low modulus neutral cure (LMN) silicone
- Excellent movement accommodation (up to $\pm 25\%$)
- Adheres to most substrates without priming
- Non-corrosive – safe for use on metals
- UV and weather resistant – suitable for outdoor use
- Highly flexible – ideal for movement joints
- Low shrinkage – long-lasting seal
- Permanently elastic after curing
- Available in multiple colours (white, grey, black, etc.)
