

PRODUCT NAME:

NON ESB ELECTRIC WARNING TAPE

PRODUCT CODE/S:

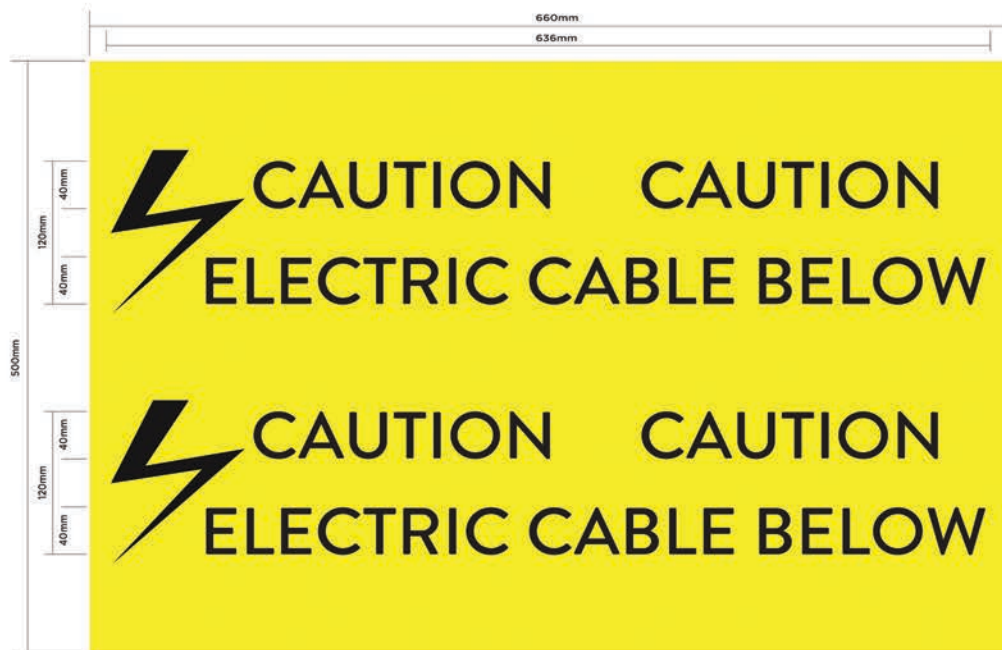

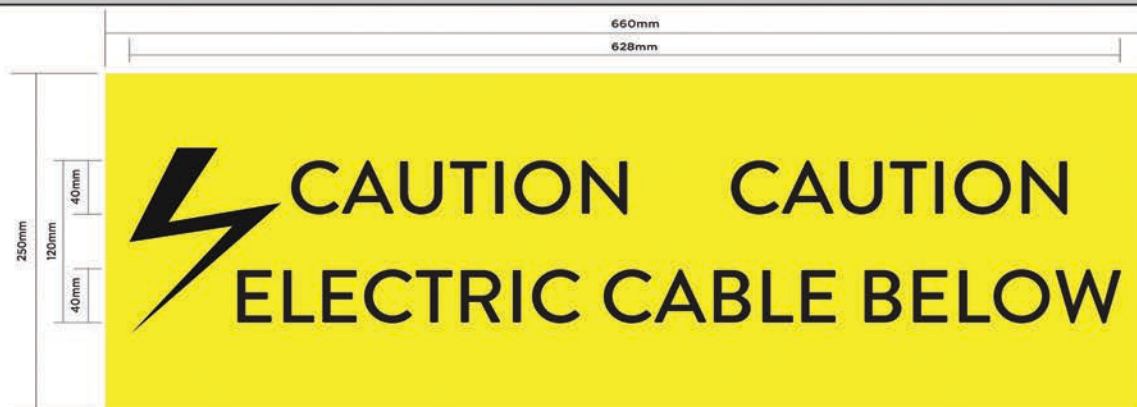

WT14NOTESB: 250MM X 200 M NON ESB ELECTRIC WARNING TAPE

WT15NOTESB: 500MM X 200 M NON ESB ELECTRIC WARNING TAPE

KEY FEATURES:

The WT14notesb (250mm x 200m) and WT15notesb (500mm x 200m) Non-ESB Electric Warning Tapes are designed for effective underground utility marking and safety identification. Manufactured from durable, high-visibility material, these tapes provide clear warning of buried electric services to help prevent accidental damage during excavation or construction work. Available in two widths—250mm and 500mm—both variants offer excellent coverage and visibility, ensuring compliance with safety practices while being easy to handle and install.
