

PRODUCT NAME:

PRE PACKED DISPOSABLE OVERALLS

PRODUCT CODE/S:

SE1610 - 13

KEY FEATURES:

Pre-packed disposable overalls are a type of personal protective equipment (PPE) designed for convenience and safety. These overalls are typically made from lightweight, breathable polypropylene material, offering protection against fine particulates, dust, and non-hazardous liquids. They come individually packaged for easy distribution and storage, ensuring that they remain clean and ready for use. Features often include elastic cuffs, ankles, and hoods to provide a secure fit and minimize the risk of contaminants entering. Pre-packed disposable overalls are commonly used in industries such as healthcare, pharmaceuticals, painting, and construction, where maintaining hygiene and safety is crucial.

DETAILS:

This product is meant to protect the head, body and legs from fine particles.
 This coverall is for single use only.
 Do not launder for re-use.
