

## DESCRIPTION & FEATURES

Weight: 1000g  
Drop-forged axe head  
Heat treatment, 45# carbon steel  
Unique design fiberglass handle  
Packed by label

## SELLING POINTS

1. The axe head is forged with 45# high carbon steel, which is hard and resistant to impact. 2. The axe handle is made of durable and safe rubber-coated fiberglass handle, which is shockproof, comfortable and not easy to slip. 3. The joints are made of high-quality epoxy resin glue, which is firm, durable and not easy to fall off.
