SELLING POINTS

1. Made of SK5 steel, the saw blade is high-frequency quenched, the tooth hardness is $HRC\pm 52^\circ$, with high hardness and good wear resistance; 2. The teeth are ground on three sides, which prevents the saw from jamming, and the cutting efficiency is higher. The saw teeth are sharp, the cut surface is smooth, and the cutting is fast and labor-saving; 3. The saw blade is reinforced with two-color rubber-coated handles, which will not loosen after long-term use,
