50 SHEETS: AP021, AP022, AP023, AP024, AP026, AP028, AP029

KEY FEATURES:

Safeline general purpose Glass Paper on a "B" weight backing. Use to smooth or remove surface imperfections and general roughness. Suitable for use on wood, paint, varnish or plaster
• Sands paint, wood, or metal
• Removing old coating or shaping
• Preparing surface after rough sanding prior to finish sanding.
• Smoothing finish for painting other finishes

MATERIAL:

GLASSPAPER. Generally composed of quartz granules on a paper backing, this is an inexpensive, relatively soft abrasive for sanding painted or natural timber, metal, and other materials. It wears relatively quickly and is best suited to provide a roughish finish before a really smooth surface is attempted. Normally only available with non-waterproof adhesives/backing paper.
