

**PRODUCT NAME:**

100 MM PAINT SCRAPER COLOURED

PRODUCT CODE/S:

TL318

KEY FEATURES:

Whilst paint scrapers are often used for removing paint from surfaces, our customers also use them for applying cementitious patching compounds such as fairing coats and patching mortar. The flexible blade helps force the compound into spalled concrete surfaces to ensure a good bond and tight patch.

DETAILS:

The 100mm Paint Scraper Coloured (TL318) is a high-quality, versatile tool designed for removing paint, varnish, and other coatings from various surfaces. The 100mm wide blade provides optimal coverage, allowing for quick and efficient scraping. The ergonomic handle ensures comfort during use, reducing hand fatigue while improving control for precise results. Ideal for both professional painters and DIY enthusiasts, this scraper is perfect for surface preparation, renovation, and maintenance tasks. Built for durability, it is suitable for use on wood, metal, and other materials. The vibrant coloured handle adds an easy-to-spot feature, enhancing visibility and convenience.
